

# MERLN Perspectives and Challenges in Tissue Engineering & How to become a MERLNER

.....  
**BYA Lecture by Paul Wieringa**

**When: 12/03/2020**

**at 18:30**

**Where: Kapoenstraat 2, KAP 1.009**  
.....

MERLN,  
institute for Technology-Inspired  
Regenerative Medicine situated  
in Maastricht  
aims to develop and employ  
advanced technologies that are  
being applied to  
advance the fields of  
Regenerative Medicine and  
Tissue engineering. One of the  
techniques that they use is  
ongoing Biofabrication and  
Neural Engineering activities.  
Information about the  
challenges and considerations  
for this type of research  
will be brought by one of the  
researchers at the institute Paul  
Wieringa.
